

# Extricom

## COMPANY OVERVIEW

Extricom is a technology developer and manufacturer of high-performance wireless data and voice networks for the enterprise market, that pioneers true mobility in VoWLAN. Its solutions significantly improve performance, capacity, scalability and ease of deployment and eliminate the limitations of traditional WLAN networks.

Extricom's technology is backed by over fifteen approved and pending patents related to Extricom's ability to deploy networks that operate unaffected by co-channel interference. The outcome is networks that operate ubiquitously at high data rates with perfect coverage, allowing successful deployment of real-time applications such as voice.

Extricom's solution is specifically designed to provide ease of deployment, seamless and secure mobility, and high-performance, at a reduced total cost of ownership (TCO) in the SMB and large-scale enterprise. Extricom provides a reliable migration path capable of handling all wired-LAN services needs, making it a natural choice for today's evolving network, while providing a seamless migration path for the end user.

Extricom's multidisciplinary research team brings together expertise in spread-spectrum radio, communication systems and protocols, networking, embedded systems and optimization software. Extricom's management team has proven success in development, manufacturing and marketing leading-edge communication solutions.

Founded in June 2002, Extricom's R&D headquarters are in located in Herzlia, Israel, and its US office is located in New York, NY.

Headquarters: Gilil Yam, Herzlia, 46905, Israel. Tel: +972 9 956 9522 Fax: +972 9 356 9557  
US Sales Office: 277 Broadway, Suite 701, New York, NY 10007, USA. Tel: +1 212 240 3896 Fax: +1 212 240 8239
